(970) 310-6481

nathan.beard@colorado.edu

Education

University of Colorado at Boulder—College of Engineering and Applied Sciences Boulder, CO
M.S., Information, Communication Technologies for Development (ICTD) 2018
• Information tech policy and ethics, social impacts of data-driven tech 3.85 GPA

University of Colorado at Boulder—Leeds School of Business Boulder, CO
B.S., Business Administration and Information Management 2014
• Certificate in Technology, Art, and Media
• Certificate in Entrepreneurial Studies
• International business coursework and internship in Barcelona, Spain

Research Interests

Investigating ethical, socioeconomic and political impacts of data-driven technologies in society with a focus on policy and privacy, labor, and civil rights. Interested in learning more about interdisciplinary research methods, historical contexts of technology development and societal application, and how to translate research into policy and other actionable products that support the political and economic dignity and agency of marginalized groups.

Interests:

technology policy; surveillance and privacy; ethics; labor; democracy; science and technology studies

Research Experience and Projects

Internet Rules Lab 2017 - present
Research assistant Boulder, CO
Research leveraging qualitative and computational techniques under the supervision of Casey Fiesler and Brian Keegan in the Department of Information Science. We're exploring online governance and the ethical, behavioral and legal implications of terms of service and privacy policies.

HCC Foundations Ethics Curriculum 2017
Learning and research assistant Boulder, CO
Designed and integrated ethics curriculum under the supervision of Michael Skirpan for a human-centered computing (HCC) class in the Department of Computer Science that aimed to help students consider the social impacts of technology as they learned the software design and prototyping cycle.

CPRSOUTH Conference 2017 2017
Young Scholar Yangon, Myanmar
Raised funds and got accepted to a two-day workshop and three-day conference on ICT policy with young researchers, technologists, journalists and regulators from Sub-Saharan Africa and Southeast Asia. We learned how to design technology policy research projects and write policy briefs based on timely research publication that can influence policy for social good.

Information, Communication Technology (ICT) Law and Policy 2017
Independent study Boulder, CO

Designed an independent study to explore Internet law and policy based on a collection of readings, such as James Grimmelman's "Internet Law: Cases and Problems," and topics spanning from case law and statute interpretation and application to TCP/IP filtering and international data protection law.

Ethics in Technology and Law Competition 2017, 2018
Multidisciplinary tech ethics competition Boulder, CO

Designed strategy and pitched ethical, legal, and technical business solutions covering data privacy in 2017 and fake news in 2018 as the technical lead in a team of law and business students for a multidisciplinary technology, ethics and law case competition.

Financial inclusion and mobile technologies 2016
Research assistant Boulder, CO

Interviewed experts, executives and entrepreneurs around the globe, collected research and helped draft a chapter on mobile technology and financial inclusion as an assistant researcher for Albert Chu, (Chapter 6: *Mobile Technology and Financial Inclusion. Handbook of Blockchain, Digital Finance and Inclusion, Volume 1.* 2018).

Publications, Papers, and Posters

Beard, N., Troxil, G., Fiesler, C. *21st Century Digital Democracy Needs a New Contract*. Forthcoming, Oxford Internet, Policy & Politics Conference. 2018.

Fiesler, C., **Beard, N.**, Keegan, B. *No Robots, Spiders, or Scrapers: Regulation of Data Collection Methods in Social Media Terms of Service*. ICWSM poster. 2018.

Skirpan, M., **Beard, N.**, Bhaduri, S., Fiesler, C., and Yeh, T. *Ethics Education in Context: A Case Study of Novel Ethics Activities for the CS Classroom*. Proceedings of the SIGCSE Conference on Computer Science Education. 2018. **[Third Best Paper Award]**

Ethical and legal implications for data collection and research in social media terms of service. In progress (with Casey Fiesler and Brian Keegan).

Regulating behavior: what are the dos and don'ts and their impact on social media platforms. In progress (with Casey Fiesler and Brian Keegan).

Professional Experience

EFK Group (Agribusiness and social impact startup) 2015 - 2016
Design Strategy Nairobi, Kenya

- Designed new brand identity and website.

Unreasonable Group (Startup accelerator and think tank) 2014 - 2015
Digital Editor Boulder, CO

- Curated, edited, and broadcasted over 200 posts and led digital and content strategy, and managed 30 regular writers spanning from serial entrepreneurs to thought leaders, like TIME Magazine's Hero of the year.
- Wrote 15+ articles and advised startups on communicating with various audiences.

- Designed, prototyped and implemented a new user-centric, content creation strategy engaging 150+ entrepreneurs and organizations, and spearheaded a partnership with USAID.

First User Group (User experience consultancy agency) 2014

User Experience (UX) Apprentice Boulder, CO

- Learned and deployed UX methodologies in the field removing biases and designing experiences from an anthropological and cognitive psychology approach.
- Conducted three UX tests and a report that led to future business contracts in mobile app design.

JumpCloud (Server management tech startup) 2014

Growth Hacker Boulder, CO

- Designed real-time growth metrics and integration for the JumpCloud website.
- Ghost wrote and edited white papers on server management and security.

Van Heyst Group (Global events firm) 2013

Marketing, Design and Partnership Development Intern Boulder, CO

- Identified and contacted global “startup hubs” for Startup Phenomenon, a conference of around 300 entrepreneurs, policymakers, and investors that have developed a full startup ecosystem.
- Billion People Project (Non-profit startup focused on environment causes):
 - o Organized focus groups for design feedback on the mobile application and user interface, and designed website.
 - o Identified and developed strategic partnerships with team of scientists from National Center for Atmospheric Research (NCAR) and Center for Disease Control (CDC).
 - o Lead a team of business students to design a cities template and implementation strategy to use with local municipalities.

Elipsis Design (Artist collective and apparel merchandising) 2008 - 2011

Co-founder and Co-owner Fort Collins, CO

- Developed business plan, sponsored public events and athletes for brand publicity, contracted consignment of products into stores, sourced and negotiated costs for product manufacturing, settled price points based off target market, and created custom website.

Leadership and Service
